Environmental Policy Statement

Ruse Estate Management Limited recognises that it has responsibilities to minimising the impact of its activities on the environment. As a business within the forestry and environmental sector, sustainability is critical to our day-to-day function.

This will be achieved by:

- Minimising waste by evaluating operations and ensuring they are as efficient as possible;
- Minimising greenhouse gas emissions through selection of equipment;
- Actively promote recycling and responsible disposal of waste; and
- Actively assess sites which we manage for risk to the environment, and put measures in place to control such risks.

A Ruse 27/7/2026

Alexander Ruse, Director
